

## St. Paul Evangelical Lutheran church Annual Report 2007

Ministry Team: Property

Committee:

Chairperson: Craig Stetler

Committee members: Disciples of St. Paul

Programs continued/ outcomes over the past year:

In the 2007 year, we started the 3 year project of replacing the rubber roofing on all church roofs.

We held the annual Spring clean-up outside the church.

We repaired various plumbing issues throughout the church.

Had a few trees removed around the property that were diseased.

Built a composting bin.

Installed a new coat rack system in the Narthex.

Added a few new bulletin boards in the Administration wing hallway.

Purchased a new snow blower.

Purchased a used tractor to replace our John Deere mower.

In 2008 we will:

Continue with the rubber roof project.

Start the blacktop sealing process in the parking lots.

Continue with tree pruning.

Install stone retaining wall around the front sign.

Comments:

Overall we have been blessed to have our Sexton (Ray) continue to do the general maintenance and repair work that we have had to out-source in the past. Carl Usner has offered a lot of time to many projects throughout the year. We will also continue to accept anyone's help that wants to offer it on any projects during the year. Thank you to everyone else that contributed their time and talents to the St. Paul property.
